PROVIDER TREATMENT PLAN:

Provider may choose to establish standard protocol by diagnosis or give patient specific orders for care.

HOME HEALTH PROVIDES:

- Skilled Nursing Services
- Approved Infusion Therapy Maintenance
- Physical Therapy
- Occupational Therapy
- Medical Social Worker
- Home Health Aide

ADVANTAGES OF HOME CARE:

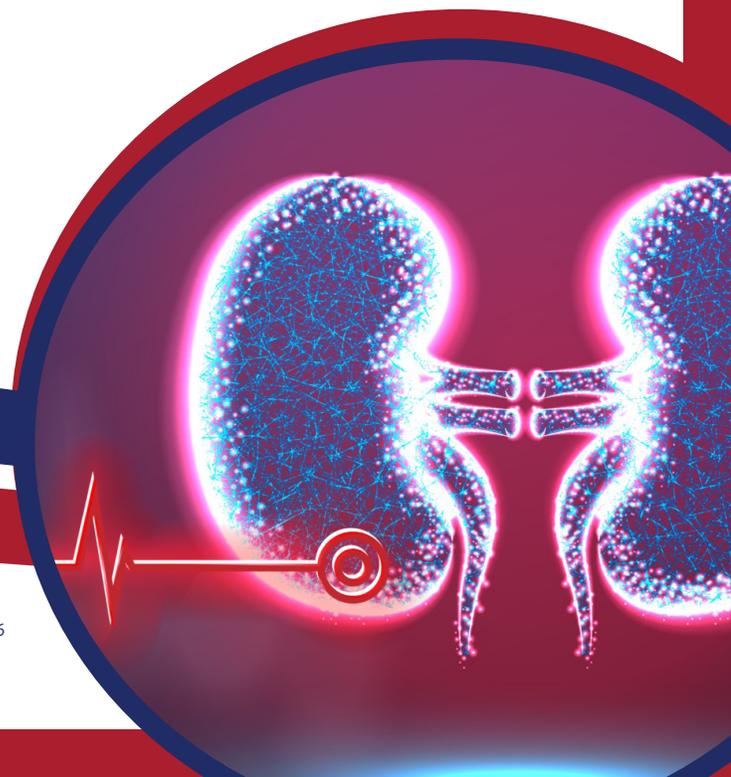

- Patients can receive support in the environment where they feel most comfortable
- Verbal order taken for start of care
- Provide monitoring of post-op progress while providing treatments and therapies as ordered
- Monitor for signs and symptoms of infection
- Teach self-management skills and support measures to family and/or care givers
- Home environment assessment
- Nurse on call 24/7

MEDICAL SOCIAL WORKER (MSW)

Counseling and intervention may be provided by the MSW when the home dynamics affect the medical condition of the patient

HOME HEALTH AIDE

When medically necessary, visit frequency is determined by patient needs and provider orders.
